John
I put the "Not previously evaluated" as the first column and made the other changes.

Can you send to all since my other email program is not working for attachments.

Thx

Bob

Thanks again Robert,
Agree + I like the short phrases.
My only suggestion is to take "New" out of the label for the 1st two columns - because if a review was not done before, then any results are relevant.
Then a new column can be added - for "New (that may change a previous result) or not previously assessed".
Thx again,
JM
